ABHINAV ANAND

AI/ML Engineer | LLM Engineer | Full Stack Developer

SUMMARY

I am a motivated AI/ML Engineer and Full Stack Developer with hands-on experience in building end-to-end machine learning systems and responsive web applications. Proficient in Python, Scikit-Learn, TensorFlow, and modern web technologies including HTML, CSS, and JavaScript. Passionate about solving real-world problems through clean code, data-driven models, and deployable products that deliver meaningful user experiences.

EDUCATION

B.Tech — Computer Science (AI/ML)

Lovely Professional University

08/2025 – 08/2029 Punjab, India

Secondary School Certificate (10th)

Kendriya Vidyalaya (KV)

03/2012 – 04/2022

PROJECTS

CreditWise Live

AI Loan Risk Intelligence System

Python | Logistic Regression | Streamlit | Feature Engineering

- Built an end-to-end ML pipeline for loan approval prediction using Logistic Regression on engineered financial features.
- Implemented a risk-scoring system to classify applicants into risk tiers with explainable model outputs.
- Deployed as a real-time Streamlit web application for interactive lender decision support.

AI-Powered Customer Intelligence System Live

Customer Intelligence System

Python | Scikit-Learn | K-Means Clustering | Streamlit

- Developed a customer segmentation pipeline using K-Means clustering to identify distinct shopping behaviour patterns.
- Generated personalised product recommendations based on behavioural clusters and purchase history data.
- Deployed an interactive Streamlit dashboard for real-time segment exploration by business stakeholders.

Portfolio v2 Live

Developer Portfolio

HTML | Tailwind CSS | JavaScript

- Designed and developed a fully responsive developer portfolio using HTML, Tailwind CSS, and JavaScript.
- Applied Glassmorphism and Neural Aesthetic design patterns for a premium recruiter-facing experience.
- Optimised for cross-device compatibility and fast load times with a clean, maintainable code structure.

KEY STRENGTHS

- Strong problem-solving mindset — skilled at breaking down complex ML systems into efficient, clean solutions.
- End-to-end product thinking: from raw data and ML models to fully deployable, user-facing applications.
- Continuous learner — consistently upskilling in emerging AI/ML techniques and modern engineering practices.
- Collaborative approach — eager to work with teams that value quality

SKILLS

Python, Scikit-Learn, TensorFlow, Machine Learning, NLP, Pandas, NumPy, SQL, Matplotlib, Seaborn, JavaScript, HTML, CSS, C, C++, Git, GitHub, Streamlit, Visual Studio Code, K-Means, Tailwind CSS, Clean Code, Responsive Web

LANGUAGES

English Professional

Hindi Native
