ABHINAV ANAND

AI/ML Engineer | Data Science Engineer | Full Stack Developer

abhinavanand9996@gmail.com Jalandhar, Punjab, India Portfolio LinkedIn GitHub

PROFESSIONAL SUMMARY

First-year B.Tech student (AI/ML) at Lovely Professional University with hands-on experience building and deploying end-to-end machine learning applications. Proficient in Python, Scikit-Learn, and Streamlit with growing expertise in data analysis (Pandas, SQL) and data visualization (Power BI, Matplotlib, Seaborn). Seeking an internship opportunity to apply ML, data science, and analytical skills in a real-world environment.

EDUCATION

B.Tech — Computer Science (AI/ML) Aug 2025 – Aug 2029

Lovely Professional University • Punjab, India

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, C, C++, HTML, CSS

ML / Data Science: Scikit-Learn, TensorFlow, Pandas, NumPy, K-Means, Logistic Regression, NLP, Feature Engineering

Data Visualization: Power BI, Matplotlib, Seaborn, Streamlit **Web Development:** Tailwind CSS, Responsive Web Design

Tools & Platforms: Git, GitHub, VS Code, Microsoft Excel

PROJECTS

CreditWise — AI Loan Risk Intelligence System Live ↗

Python | Logistic Regression | Streamlit | Feature Engineering | Scikit-Learn

- Built an end-to-end ML pipeline for loan approval prediction using Logistic Regression with feature engineering on financial data, achieving high classification accuracy across risk tiers.
- Designed an explainable risk-scoring system to classify applicants into Low / Medium / High risk tiers, improving interpretability for lender decision support.
- Deployed as a real-time Streamlit web application, enabling interactive scenario testing by non-technical stakeholders.

AI-Powered Customer Intelligence System Live ↗

Python | Scikit-Learn | K-Means Clustering | Streamlit | Pandas

- Developed a customer segmentation pipeline using K-Means clustering to identify distinct shopping behaviour patterns across purchase history data.
- Generated personalised product recommendations based on cluster analysis, directly linking behavioural segments to business actions.
- Built and deployed an interactive Streamlit dashboard enabling business stakeholders to explore customer segments in real time.

Developer Portfolio v2 Live ↗

HTML | Tailwind CSS | JavaScript

- Designed and developed a fully responsive developer portfolio applying Glassmorphism and Neural Aesthetic design patterns for a premium user experience.
- Optimised for cross-device compatibility and fast load performance with clean, maintainable code structure.

KEY STRENGTHS

- Strong problem-solving mindset — skilled at breaking down complex ML systems into efficient, deployable solutions.
- End-to-end product thinking: from raw data and model training to user-facing, deployed web applications.
- Fast learner actively upskilling in Power BI, advanced NLP, and LLM application development.
- Collaborative approach — eager to contribute to teams that value quality engineering and data-driven decision making.

LANGUAGES

English — Professional Proficiency **Hindi** — Native
